

The Wakari Home & School in association
with the Cancer Society are offering
SUNSCREEN TUBES

With summer fast approaching, it is time to think about sunscreen. New Zealand can have high levels of ultraviolet (UV) radiation. UV radiation can cause skin and eye damage. Up to 80% of UV radiation can still get through on a cloudy day

As a fundraiser, the Home and School are selling 50g tubes of SPF50 quality sunscreen. Each tube is \$5. These are excellent for school bags or to have in the car.

How to order

Orders can be made by filling in the form below. Please put the form and the correct money into an envelope and pop it into the **box in the school office**.

This is an ongoing fundraiser until 14th December 2017. Orders will be processed as they came in.

Thank you for your support.
